Profile

20 years old, student in computer science .at the University of Yaounde 1; passionate about discovering new technologies and acquiring new skills. specialised in backend development but with more or less in-depth knowledge of other domains.

Some Experience

- great familiarity with backend technologies like Django and Django rest framework
- classic notions of scrapping with selenium, pyrograme or facebook-scrapper
- Development of the backend and the respective api of the Avendre website (www.avendre.yaknema.com) and its mobile version on the playstore
- for more experiences see:
github: <https://github.com/BrownofDarkness>
gitlab: <https://gitlab.com/BrownWilfried>
